

FT Tuberculin Tester (Approved or Trainee), FarmVets SouthWest Ltd, Somerset / Devon, UK

We seek a positive, pro-active trainee to join our happy practice team in an RCVS accredited practice.

- Working across our 3 branch practice located on the beautiful Somerset levels and Quantock/Blackdown hills with access to the Jurassic coast ensuring a favourable work/life balance with the historic towns of Bath, Exeter and Bristol within easy reach
- Start date as soon as possible, flexibility possible
- We have vast experience training new personnel and offer unrivalled support for dedicated team members
- Progression in this role would be going on once trained as an ATT to become a Vet Tech. This would involve tasks such as mobility scoring, calf disbudding, vaccinations, youngstock weighing, hygiene & body condition scoring and data collection (disease monitoring)

Benefits include;

- 25 days holiday per annum plus the 8 bank/public holidays
- Company vehicle & equipment provided
- Competitive salary dependent on experience
- A dedicated TB testing admin team ensures support from start to finish
- A helpful admin team going beyond the normal level of administrative support
- Support and freedom to focus on areas of interest using our great CPD opportunities and training in house, via VetPartners
- Pet discount – Receive discount on all products and services at sister VetPartners practices
- Health Shield private insurance - Health Shield offers a variety of benefits, including wellbeing support, with 24/7 counselling (including face-to-face) and support helplines. Health Shield also provides discounts on shopping, days out and holidays

Ideal Candidate would;

- Basic disclosure and barring service (DBS) check required
- Minimum of 3 GCSEs or equivalent qualifications in Mathematics, English and in a Science subject or Food Production
- Agricultural experience is essential with a minimum of 6 months handling cattle
- Personal values to include; Approachable, Respectful, Supportive, Dedicated, Collaborative
