

Sherford Down Farm: Full Time Farm Worker

Full time farm worker required for a 600 acre young family run mixed farm near Kingsbridge in the South Hams (Devon) with a minimum of 3 years experience.

Tasks include (for which a valid telehandler certificate is essential):

- Feeding and bedding cattle
- Harvest grain carting and grain store management
- Bale carting and stacking
- Cultivations mostly using Simba DTX cultivator and a little ploughing
- Some silage work (raking and tedding)
- Ideally some fertiliser spreading and crop spraying (relevant PA certificates required)

Other useful skills:

- Digger work
- Fencing
- Workshop skills (machinery servicing/welding etc)
- Calving experience

We run a tidy fleet of John Deere 30 series and R series tractors from 115 to 215hp mostly with Greenstar so Greenstar experience would be an advantage. We also run our own combine.

Onsite accommodation is available in a 2 bed centrally heated double glazed static caravan. The farm is in a desirable rural setting only 2 miles from the sea and 3 miles from the coastal market town of Kingsbridge which has numerous amenities.

We are ideally looking for someone long term (but would consider a harvest/drilling seasonal worker doing mostly grain cart and cultivations) who is motivated and happy both working on their own and alongside a hands on owner operator.

Work is available all year round is available so there is no concern over insufficient hours through the winter. Weekends and late nights will be required at peak times. Salary will be highly competitive based on experience.

If you are interested please contact joe@sherforddownfarm.co.uk or 01548 531208. Thank you!
