

TORCH

FARMVETS

*"Fantastic course,
learnt so much & enjoyed
it too!"*

This course is aimed at farmers who need to attend a medicines course to meet Red Tractor requirements and anyone who would like to be more confident with using medicines in a responsible and safe manner.

Our courses are vet led, interactive and enjoyable.

The course covers:

- Understanding different classes of medicines, what they do and when to use them.
- The safe and effective administration of medicines.
- How to comply with medicines legislation and farm assurance requirements.
- Reducing the use of medicines on farms through active health planning.

We have had great feedback from our previous courses and many farmers have been pleasantly surprised at what they have learnt.

Mastering Medicines Course

Upcoming dates!

- 16th June @ Filleigh
- 17th June at Neetside
- 4th July at Filleigh
- 29th July at Neetside
